EDUCATION

- **Purdue University (2018-2022)** - Computer Science and Data Science
- **Henry M. Gunn High School, Palo Alto, CA (2014-2018)**
 - Science Department Award (2015)
 - Spanish National Award (2015 & 2016)

EXPERIENCE

Most of my projects are highlighted on my [Github](#).

- **Languages** - Swift, Python, Java, R, MySQL, Scheme, JavaScript, HTML, and CSS
- **Skills** - Development, Machine Learning, Augmented Reality, UI/UX Design, and Research
- **Verity Medical Foundation** - Over my 2017 summer break, I shadowed an internal medicine physician and observed she diagnosed and prescribed medicine to patients with various health issues. I realized that there is plenty of room for technical innovation in the health industry.
- **Advanced Authentic Research (AAR)** - I developed an app that measured 4 different types of brainwaves when connected to an electroencephalogram. I measured emotions ranging from depression to happiness. [Project highlight link](#).
- **Machine Learning** - I learned how to perform predictive analysis using neural networks. I explored various frameworks including NumPy, PyTorch, Tensorflow, and Keras. Check out my code at:
 - <https://github.com/nikhiljay/ml-projects>
 - <https://github.com/nikhiljay/transfer-learning>
- **Top 10 in Nation for [Technology Student Association Teams](#) Competition** - Team lead at the national competition by applying STEM knowledge to solve real-world engineering challenges. Events included researching and exploring methods of eradicating food deserts, detecting and removing arsenic from contaminated water, and solving air pollution.
- **Organized [GunnHacks](#) (2016 & 2017)** - I contacted various companies to sponsor our event and prizes. I managed to bring judges and over 200 high school students together from all over the bay area to participate.
- **Hackathon Participation**
 - [Hacking Generation Y](#) - Built an app to find volunteering opportunities for students.
 - [HSHacks II](#) - Built a [to-do list app](#) that prioritizes tasks based on location and existing calendar events.
 - [HackingEDU](#) (Winner) - Project [HackChair](#), an analytical tool built from a chair that used an iPhone's gyroscope and proximity sensor to detect posture and chair tilt. We won 2nd place

amongst 1200 nationwide participants. We were interviewed by VC firm Learn Capital and GSV Labs.

- [TreeHacks](#) and [MakeHacks](#) - Worked on my AAR brainwaves project.
- **Winner of Apple Scholarship in 2015** - [WWDC Scholarships](#) reward talented students and developers with the opportunity to attend Apple's annual developer conference. I was one of 350 students selected for the scholarship globally.
- **Websites built/administered**
 - Design+Code (over 17,800 members) - [designcode.io](#)
 - WWDC Scholars - [wwdcscholars.com](#)
 - Ashtrix Inc. - [ashtrixinc.com](#)
 - Gunn Speech and Debate - [gunnsd.com](#)
 - Help Nepal - [nikhiljay.com/helpnepal](#)

PUBLICATIONS

Please refer to my blog site [blog.nikhiljay.com](#). I like to talk about technology, science, and my other curiosities.

ACTIVITIES

- **Clubs** - Anatomy & Physiology, Engineering, and Research, Science, & Innovation
- **Gunn Varsity Speech and Debate Team**
 - Ranked 236th in the nation for Parliamentary debate
 - Octofinalist at James Logan MLK invitational
 - Led a position as Treasurer in leadership committee
- **Boy Scouts**
 - Rank of Eagle
 - Leadership positions: Senior Patrol Leader, Librarian, and Webmaster

VOLUNTEERING

- **Abilities United** - I developed the website and a tool that can simultaneously post messages on multiple social media sites including Facebook, Twitter, LinkedIn, and Google Plus. This helped to streamline their marketing and communication process.
- **Leukemia and Lymphoma Society (LLS)** - Co-founder and volunteer for the LLS club at my school. I organized fundraisers to support the cause.
